

AAQEP Annual Report for 2024

Provider/Program Name:	Houghton University Teacher Education Program
End Date of Current AAQEP Accreditation Term (or “n/a” if not yet accredited):	June 30, 2028

PART I: Publicly Available Program Performance and Candidate Achievement Data

1. Overview and Context

This overview describes the mission and context of the educator preparation provider and the programs included in its AAQEP review.

The Houghton University Teacher Education Program (HUTEP) is rooted in the conviction that education at every level must not only inform the mind, but also enrich the spirit and develop the character of all who participate. The HUTEP further believes that, to serve effectively as teachers in the changing world of the 21st century, our graduates must enter the profession solidly prepared in academic content, intellectual abilities, and pedagogical knowledge. Additionally, graduates must demonstrate personal responsibility and professional dispositions that will ensure a positive educational experience for all learners. Since no amount of preparation can anticipate all teaching contexts or subsequent developments in the field, our graduates must also be ready to continue learning as they teach. The mission of HUTEP, derived from these convictions, is to equip teachers for transformative learning and service.

There are four undergraduate strands for teacher preparation at Houghton: Adolescence Education, Inclusive Adolescence Education, Inclusive Childhood Education, and Music Education. There are regular and diverse clinical field experiences across all strands of the undergraduate programs. While most of these experiences occur in rural schools, all candidates have a two-week intensive experience where they are immersed in inner city Buffalo Schools for the EDUC 240: Teaching in Urban America course. In addition to the four undergraduate strands, the HUTEF offers a Master’s program in literacy. Paralleling our undergraduate program, the M.S.Ed. - Literacy program seeks to equip certified PK-12 educators to foster positive literacy-rich experiences with diverse backgrounds and abilities. The program leads to an additional initial or professional certification as a literacy specialist. The HUTEF is composed of all members of the education department and led by the area dean of the education department, and meets weekly to make program policy decisions.

All candidates complete practica/clinical experiences and student teaching/internships and complete a senior or graduate level portfolio. The HUTEF graduates approximately 30 program completers annually. These graduates are highly sought after within and beyond local and state school districts.

Added or Discontinued Programs

Any programs within the AAQEP review that have been added or discontinued within the past year are listed below. (This list is required only from providers with accredited programs.)

Prior to the 2022-23 academic year, Houghton submitted an application and received approval from NYSED to offer a Bachelor of Science degree leading to certification as a Grade 7-12 Students with Disabilities Generalist. The education core for the B.S. degree is identical to the B.A. degree; the B.S. option gives students desiring to pursue a second major greater flexibility and enables them to complete their degree in the traditional 4-year time period.

3. Program Performance Indicators

The program performance information in Table 2 applies to the academic year indicated in Table 1.

Table 2. Program Performance Indicators

<p>A. Total enrollment in the educator preparation programs shown in Table 1. This figure is an unduplicated count, i.e., individuals earning more than one credential may be counted in more than one line above but only once here.</p>
<p>121</p>
<p>B. Total number of unique completers (across all programs) included in Table 1. This figure is an unduplicated count, i.e., individuals who earned more than one credential may be counted in more than one line above but only once here.</p>
<p>29</p>
<p>C. Number of recommendations for certificate, license, or endorsement included in Table 1.</p>
<p>46 recommendations were earned, 38 undergraduate and 8 graduate. At the undergraduate level, 4 Adolescence Education completers earned a single recommendation, 16 Inclusive Childhood completers earned both Childhood Grade 1-6 and SwD Grade 1-6 recommendations, 1 Inclusive Adolescence completer earned both English 7-12 and SwD 7-12 recommendations. At the graduate level, 4 completers earned Literacy B-6 recommendations and 4 completers earned B-12 recommendations.</p>
<p>D. Cohort completion rates for candidates who completed the various programs within their respective program’s expected timeframe and in 1.5 times the expected timeframe.</p>

Where completers took more than four years to graduate, almost all declared the major late in their sophomore year. Course sequencing forced a year of preparation before beginning upper-level courses, then a ninth semester for student teaching.

*Our first graduates in this program were in AY 2021-22. The program at that time was built to be completed in three or four years, depending on the pace the individual was willing to follow. Beginning in F2022, based on feedback from our students and prospective students, we restructured the program courses to be offered in 8-week sessions, reducing our program's expected timeframe from 3-4 years to 2 years.

E. Summary of state license examination results, including teacher performance assessments, and specification of any examinations on which the pass rate (cumulative at time of reporting) was below 80%.

F. Narrative explanation of **evidence available from program completers**, with a characterization of findings.

As outlined above, our pass rate for every NYSED examination was above 80%. We continue to monitor changes to standards and state assessments and incorporate that content throughout our program requirements.

G. Narrative explanation of **evidence available from employers of program completers**, with a characterization of findings.

Our annual employer survey did not have enough responses to analyze.

H. Narrative explanation of how the program investigates **employment rates for program completers**, with a characterization of findings. This section may also indicate rates of completers' ongoing education, e.g., graduate study.

Houghton University surveys all students at graduation and six months post-graduation, seeking information on employment and graduate school enrollment. In our most recent survey, over 80% of Education respondents reported employment in education and 95% reported either current graduate studies or a graduate degree.

The Houghton University Teacher Education Program conducts an annual survey of graduates two years and five years after graduation. The results are summarized and reported to the Education faculty, who then identify areas of concern and set goals for improvement. Last year we increased discussion of collaboration between teachers and other stakeholders- students, parents, colleagues and community- to both student teaching orientation and student teaching seminar courses, but we have not yet seen any change to survey scores.

4. Candidate Academic Performance Indicators

Tables 3 and 4 report on select measures of candidate/completer performance related to AAQEP Standards 1 and 2, including the program’s expectations for successful performance and indicators of the degree to which those expectations are met.

Table 3. Expectations and Performance on Standard 1: Candidate and Completer Performance

Provider-Selected Measures	Explanation of Performance Expectation	Level or Extent of Success in Meeting the Expectation
Junior Practicum Evaluation	During the junior practicum clinical field experience, an evaluation form is utilized, which is based tightly on Danielson’s framework. This alignment was due in large part to New York’s alignment of the actual teacher observation instrument with Danielson. The practicum evaluation is a truncated form of the full form used for student teaching. There are numerous criteria observed which relate to AAQEP standard one. A Likert scale is used with a 4 indicating exceptional, 3 is proficient, 2 is developing and 1 is minimally evident. Candidates must perform at the developing level or higher on ALL criteria to move to student teaching.	25/25 juniors met all criteria and were approved to advance.

<p>Student Teacher Evaluation / Graduate Internship Evaluations</p>	<p>During student teaching and the graduate level clinical field experiences, evaluation forms are used (based tightly on Danielson’s framework). <p>Senior Portfolio / Graduate Portfolio</p>	<p>The senior portfolio is a compilation of essays which present the students understandings and practices (with appropriate hyperlinked artifacts) of each of five claims for program completers: 1) Demonstrate a breadth and depth of subject matter knowledge and facility with the intellectual tools of the liberal arts, 2) Articulate and implement a personal philosophy of education based on their knowledge of students’ cognitive, psychosocial, and moral development as well as the cultural and philosophical foundations of education, all of which</p>	<table border="1"> <thead> <tr> <th>Strand</th> <th>Number</th> <th>Results</th> </tr> </thead> <tbody> <tr> <td>ADE</td> <td>3</td> <td>100% met</td> </tr> <tr> <td>IADE</td> <td>1</td> <td>100% met</td> </tr> <tr> <td>ICE</td> <td>16</td> <td>100% met</td> </tr> <tr> <td>MED</td> <td>0</td> <td></td> </tr> <tr> <td>Literacy</td> <td>8</td> <td>100% met</td> </tr> </tbody> </table>	Strand	Number	Results	ADE	3	100% met	IADE	1	100% met	ICE	16	100% met	MED	0		Literacy	8	100% met

	<p>inform and give coherence to their teaching, 3) Integrate the knowledge and intellectual tools of the liberal arts with pedagogical knowledge to create instruction and assessment practices that acknowledge, address and value the varied learning needs of diverse students in nurturing and culturally-responsive learning environments, 4) Work in partnership with students, educational professionals, parents, and community members to foster students' learning and development, and 5) Develop and critique educational thought and practice in light of Christian faith in a way that communicates the commitment and ability to grow as life-long learners who contribute thoughtfully to the profession while demonstrating integrity in their personal and professional behavior. A Likert scale is used with a 4 indicating exceptional, 3 is proficient, 2 is developing and 1 is minimally evident. If candidates score below a 2 on an essay, they must resubmit the applicable portion of the essay.</p>	
Disposition Assessment	<p>Professional Dispositions are monitored throughout each candidate's undergraduate experience. Candidates formally assess their own professional dispositions at the entry to the program. During the junior year, candidates again self-assess after they have interned in a K-12 setting while college faculty assess them during this time as well. Dispositions</p>	<p>All candidates have met or exceeded dispositional standards prior to their student teaching experience.</p>

	are also discussed during weekly department meetings. If students need to improve, then a professional growth plan is created by faculty and the student.	
Survey of Alumni & Employers	These surveys examine program effectiveness in determining a candidate's content and pedagogical knowledge by surveying 2 years and 5 years after graduation	The number of responses was too low to allow quantitative analysis.

5. Notes on Progress, Accomplishment, and Innovation

Challenges:

- 1) Finding quality practicum and student teaching placements, in the midst of ongoing teacher shortages. While this remains a challenge we have increased our efforts to maintain partnerships with the schools we have previously worked with, and sought to create our placements earlier in an effort to secure these placements prior to other institutions requests.
- 2) Non-Education majors in their 3rd or 4th year who pursue teacher certification. In an effort to create a “pathway” to certification for these students, the MAT in Adolescence was created and approved by NYSED. Now as students approach us late in their undergrad program, we advise them to complete their undergraduate degree, and seek teacher certification through the MAT program which will lead to a recommendation in both initial and professional certification.

Responsive Actions/Accomplishments:

- 1) Creation and NYSED approval of MAT in Adolescence degree now available for application and admission starting in the 2025-2026 academic year.
- 2) In an effort to attract High School students wishing to pursue Education as a major, we have added the three foundational Education courses: EDUC 217, EDUC 219 and EDUC 235 to our online early college course offerings. We have seen a very positive response to these initial course offerings.
